

# IAGU LIMPO –TABANKA SAN, TRAINING for TANZANIAN TRAINERS in Buba, 2017

Report in pictures of the training for the **SPOT Tanzania Team**: coordinator, manager and masons, April 2017  
The education lasted 6 days training and 6 days supervision. First the trainers and trainees constructed together 2 tanks, than the trainees constructed a tank by themselves under distant supervision.

SPOT Tanzania participants: Kees Kempenaar, John Joseph Nshunju, John Tiliani Itunda, Ellance Bakari Shemzigwa.  
IAGU LIMPO – TABANKA SAN: Paul Akkerman, Sadjaliu Djalo and trainers Iaia Indjai, Curé Sumba, Joao Quissif.

Buba Centre with classroom.

learning by watching the trainer, doing and working together

Construction of foundation. Twisting circle of steel wire for roof. Coordinators Paul and Kees watching the work

**IAGU LIMPO (De Gevulde Waterkruik)** is responsible for the technical, preparation, the training and the supervision. Buba Centre offered full accommodation. SPOT Tanzania paid the costs of their transport, the fee for training and trainers and the accommodation. IAGU LIMPO invites projects to have a training in Buba. watching and doing

Trainer Iaia and Kees shake hands like friends. Children always around. Manager John on IAGU LIMPO toilet

The students from Tanzania are proud on their own work, because in the second stage of the training, they constructed the third Calabash Tank without help of the trainers. They proved their skill!

Paul Akkerman
